

The NX-Air Series is an upgraded package of the NX that includes an on-board battery that allows for over one hour of untethered operation. The NX-Air can also be configured with an optional WiFi™ module for wireless operation. In this configuration, the camera is fully autonomous and can be operated remotely using a laptop, tablet or Mac iOS device like an iPad®. Power Supply, High G Universal Mounting Plate and Break-out cable for easy out-of-the-box operation are included.
